

# MamboServer - CSS cross-reference by referencing file.

Contributed by Frotz  
 Sunday, 10 July 2005  
 Last Updated Saturday, 09 September 2006

This was mangled by hand based on a 4.5.2 MamboServer installation. Exotic components were filtered to help template designers avoid unnecessary noise.

Updated: 2006-09-09 07:40 - Page placed in the public domain.

Mambo 4.5.2 - CSS style - alphabetical sort cross referenced by file

```
grep -r class= modules/* includes/* mambots/* editor/* components/*
```

Go figure that I would write something important enough for me to have to consider the Berne Convention... Per a request from Paulino Michelazzo of <http://www.noritmodomambo.org/> regarding the copyright status of this page, I am hereby placing this page into the public domain. You are free to do whatever you wish with this content (restructure, reformat, reprint, etc). An attribution would be nice, but this is completely unnecessary.
